

This evaluation is based on students taking the Master of Science in Administration (MSA) Program with a concentration in Acquisitions Administration, General Administration or Leadership. The Acquisitions Administration and General Administration concentrations provide the most flexibility for students. Nine (9) hours of transfer credit can be considered. For students considering the Leadership concentration, fewer credits will be transferred and Prior Learning Assessment will be considered on a case by case basis. The Leadership concentration is focused on those courses intended to promote leadership skills.

Transfer credit must be identified as graduate level on the DAU transcript and the grade of “pass” is considered equivalent to a “B” on the graduate level.

A maximum of 18 hours of prior learning and graduate transfer credit may be used towards the MSA degree. A maximum of ten (10) hours of Prior Learning credit may be used on the degree. Prior Learning Assessment policies are similar to the graduate transfer credit policy in that work experience and training experience submitted for Prior Learning Assessment must be within the seven (7) year timeframe prior to the student’s graduation.

Any three or the equivalent of 9 credits may be transferred into the MSA Program for use on the Acquisitions Administration or General Administration concentration. Courses that may apply to the Leadership concentration are also identified.
